American Football Animation

[Showcase Video](#)

American football game to life with this **comprehensive animation pack** featuring **150 + high-quality animations** tailored for sports gameplay.

Whether you're creating an immersive football simulator or a fast-paced arcade game, this pack provides all the movements you need to make your characters dynamic and realistic.

Key Features:

- **Comprehensive Animation Set:** Includes core actions like **blocking, tackling, and diving**, as well as celebratory and defeat animations.
- **Diverse Movements:** Animations for jogging, walking, sprinting, sliding, and jumping to cover all gameplay scenarios.
- **Action-Packed Animations:** Dynamic actions like **backflips, kicking, goalkeeping, and sliding** add excitement to your gameplay.
- **Game-Ready States:**
 - **Victory:** Celebrate wins with victory poses.
 - **Defeat:** Showcase defeat with animations for **death, knocked out, and injured** states.
- **Seamless Integration:** Animations are optimized for Unity and other major game engines, ensuring smooth implementation.
- **Loop-Ready and Transition-Friendly:** Perfect for creating smooth gameplay and cutscenes.

Animation Categories:

1. **Offensive Actions:** Block, tackle, dive, kick, jump, slide.
2. **Defensive Actions:** Goalkeeping, knockdowns, and defeated states.
3. **Movement:** Walk, jog, sprint.
4. **Special Animations:** Backflips, victory poses, injury states, death animations.

Why Choose This Pack?

Save time and effort by using this ready-to-go animation library that covers every aspect of American football gameplay. Whether you're an indie developer or part of a larger studio, this pack will enhance your project and captivate your players.

Video Map Unavailable

Please note that this project does not include a video map feature. While the project offers rich animations and detailed assets, a video map functionality is not part of this package. It's designed solely for understanding animation and its applications.
